

Vision / Mission / Values

Our vision – we are forging the future

We want the market to perceive SCHMIEDEWERK STOOSS as a global company in our niche sector (product area). We believe in Switzerland as a location and in the future of the open-die forging industry, taking ecological and economic aspects into account.

Our mission – to remain competitive in the world market through fast and reliable delivery of outstanding quality

Thanks to our billet material warehouse, which is designed to meet market requirements, manageable size and consistent "Lean Management", SCHMIEDEWERK STOOSS is well equipped for international competition.

Our values – we live them equally with our employees, customers and suppliers

We protect all people in their personality and individuality. Our way of working is characterised by professionalism, personal integrity, professional and leadership competence! We take our leadership responsibility seriously. We exemplify defined principles and demand them from our employees.
